*AMM WORKING GROUP (u)*  
SUBJECT: <sup>A</sup> GMAIC ~~Subcommittee~~ (U)

TO: FROM: GMAIC Chairman DATE: COMMENT NO. 1

USAF review(s)  
completed.

1. <sup>A</sup> ~~The~~ Antimissile Missile (AMM) <sup>Working Group</sup> ~~Subcommittee~~ of the Guided Missiles and

Astronautics Intelligence Committee (GMAIC) will be established 15 September 1961.

The purpose of this <sup>WORKING GROUP</sup> ~~subcommittee~~ is to aid GMAIC in developing intelligence on the Soviet programs for defending against ballistic missiles and space vehicles. See Inclosure 1 for the charter of this subcommittee.

2. It is a continuing requirement for GMAIC (through USIB and other agencies) to furnish current, competent analyses of the Soviet AMM programs to governmental strategic planners and to U. S. developers of both ballistic missiles and anti-missiles systems. Experience during the past eighteen months shows that the normal GMAIC/USIB procedures are not adequate because of the new, diverse, and changing technologies inherent in defenses against ballistic missiles. This background is discussed in Inclosure 2.

3. Clearance requirements for the subcommittee will be announced in GMAIC session. Members should be working analysts, generally the service or agency representative who is responsible for developing AMM system analyses. Alternate members should be appointed to support each member. Names of members and alternate

Approved For Release 2004/07/28 : CIA-RDP79R00961A000400080050-1

should be submitted to the Chairman, GMAIC, by 20 September. The Subcommittee Chairman will be appointed by the Chairman, GMAIC. The appointed chairman will call the first subcommittee meeting between 25 September and 1 October.
